Message from the Guest Editors

Dear Colleagues,

The 7th International Conference on Modern Circuit and System Technologies on Electronics and Communications (MOCAST 2018) will take place in Thessaloniki, Greece, 7–9 May, 2018. The MOCAST technical program includes all aspects of communications and network technologies from antenna design, propagation modeling, wireless communications, network systems and applications. This Special Issue aims at publishing extended versions of top-ranked papers in the area of communications from the conference. MOCAST is technically sponsored by IEEE. Potential topics include, but are not limited to, the following:

- Antenna design
- Propagation
- Communications systems
- Wireless communications
- Network systems

Message from the Editor-in-Chief

Technologies, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within ESCI (Web of Science), Scopus, Inspec, INSPIRE, and other databases.

Journal Rank: CiteScore - Q1 (*Computer Science (miscellaneous)*)
