submissions:

closed (31 March 2018)

Message from the Guest Editors

Dear Colleagues,

We invite submissions to this Special Issue “Physiological Monitoring Technologies” as review articles, original research papers, and short communications covering a broad field of technologies supporting physiological monitoring for both human and animal models, targeting health monitoring and biological studies.

Contributions may include, but are not limited to:

- Design and development of sensors, electronics and systems for physiological monitoring
- Smart computational schemes and/or algorithms to enhance the efficiency and efficacy of physiological monitoring systems
- Smart materials and/or design to enhance the efficiency and efficacy of physiological monitoring systems
- Novel concepts, technologies and implementation for acquiring, processing and monitoring physiological signals

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Technologies, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within ESCI (Web of Science), Scopus, Inspec, INSPIRE, and other databases.

Journal Rank: CiteScore - Q1 (*Computer Science (miscellaneous)*)
