Message from the Guest Editors

In 2023 we are celebrating the 10th anniversary of *Toxics* (ISSN: 2305-6304). Since 2013, when the inaugural issue of *Toxics* was launched, we have already published more than 1500 papers from more than 7800 authors. More than 3000 reviewers have submitted at least one review report. In 2019, *Toxics* was indexed in Science Citation Index Expanded (SCIE) in Web of Science. Our sincerest thanks go to our readers, innumerable authors, anonymous peer reviewers, editors, and all of the people working for the journal in some way who have contributed their efforts over the years. These highlights would not have occurred without your participation.

To mark this significant milestone, a Special Issue, entitled “The 10th Anniversary of *Toxics*”, is being launched. This Special Issue includes high-quality papers under the broad scope of *Toxics*. We would like to invite you to contribute an original research paper or a comprehensive review article on a trending or hot topic for peer review and possible publication.

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.
