Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to focus on new information and scientific evidence mainly with regard to: (i) CTX occurrence in aquatic environments, with an emphasis on edible aquatic organisms; (ii) analysis methods for the determination of CTXs; (iii) advances regarding CTX-producing organisms; (iv) environmental factors involved in the presence of CTXs; and (v) assessment of public health risks related to the presence of CTXs, as well as risk management and mitigation strategies. Studies addressing any other questions of relevance or reviews related to CTXs are also considered to be of interest and welcome for submission.

Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.
