Dear Colleagues,

We are pleased to announce the winners of the *Universe* 2020 Best Paper Awards for Special Issue. All papers published in Special Issue “*Universe*: 5th Anniversary” were considered for the awards. After a thorough evaluation of the originality and significance of the papers, citations, and downloads, the two winning papers, which were nominated by the Editor-in-Chief and Award Committee, have been selected.

The Montevideo Interpretation: How the Inclusion of a Quantum Gravitational Notion of Time Solves the Measurement Problem

By Rodolfo Gambini and Jorge Pullin

Universe 2020, 6(12), 236.

Closed Timelike Curves, Singularities and Causality: A Survey from Gödel to Chronological Protection

By Jean-Pierre Luminet

Universe 2021, 7(1), 12.

2020 BEST PAPER AWARD WINNERS

The authors will receive an award of 500 CHF and a certificate. We believe the above papers represent valuable contributions to *Universe* and the scientific literature.

Kind regards,

Universe Editorial Office
