Message from the Guest Editors

Dear Colleagues,

We invite you to submit your works for open access publication in this Special Issue of *Urban Science*, entitled “Urban landscapes Changes in Mediterranean Regions”. Contextually, this Special Issue will focus on the changes—i.e., social, economic, environmental, political, among many other factors and themes that could be catalysts for changes—occurring in the Mediterranean Territories and consequently be able to reshape and change those regional landscapes.

In the last few decades, these urban landscapes have been subject to many changes due to many local, regional, and global events as well as to social shifts. In fact, these urban landscapes comprise all those events within them. Therefore, the study of urban landscapes allows us to assess the past, understand the present, and envision the future. Thus, this Special Issue will analyze these landscapes from different perspectives, aiming to define regional landscapes dynamics, challenges, and new trends.

Message from the Editor-in-Chief

Urban Science is a scholarly international journal which provides a platform for the exchange of theories, ideas, methods, analyses, and comparative studies of urban and regional development. It is a peer-reviewed, open access journal that publishes high quality original articles, theoretical essays, critical reviews, research notes, and shorter communications. Its broad definition of “science” includes both quantitative and qualitative methods of social, environmental, and spatial analysis. There is no restriction on the length of the papers.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#) and [other databases](#).

Journal Rank: CiteScore - Q1 (*Urban Studies*)
