Deadline for manuscript submissions:
31 January 2025

Message from the Guest Editor

Dear Colleagues,

This Special Issue welcomes high-quality papers regarding vaccine research, vaccination, and immunology. We encourage the submission of systematic reviews and/or meta-analyses that include the most recent research results and findings. A paragraph highlighting the research in context, including evidence before this study, the added value of this study, and potential implications of the results should be included in the cover letter.

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q1 (*Immunology*) / CiteScore - Q1 (*Pharmacology (medical)*)
