Message from the Guest Editor

Dear Colleagues,

I am delighted to inform you of the invitation to contribute to our Special Issue titled "New Insights into Canine Tumors". The scope of this Special Issue encompasses a wide range of topics, including cancer immunotherapy, genetic mutation analysis, liquid biopsy, immunotherapy biomarkers, combination treatments, cancer vaccines, early detection markers, artificial intelligence applications, and biome analysis. We aim to cover various aspects, including how these technologies are applied in cancer research and patient care. Furthermore, we will delve into the valuable insights gained from cancer treatment research in companion animals. This Special Issue aims to provide a comprehensive overview of the latest advancements in the field, fostering collaboration and knowledge sharing among researchers, clinicians, and experts in oncology. We invite you to contribute your expertise and research to this Special Issue, enriching our understanding of cancer and its management.
