Application of Smart Technologies in Integrated Water Quality Modeling

Guest Editors:

Dr. Tianxiang Wang
School of Ocean Science and Technology, Dalian University of Technology, Panjin, China

Dr. Alex Neumann
Department of Physical and Environmental Sciences at Scarborough, University of Toronto, Toronto, ON, Canada

Deadline for manuscript submissions:
25 July 2024

Message from the Guest Editors

This Special Issue aims to delve into methodologies pertaining to water quality, encompassing water resources, aquatic ecosystems, and the assessment of water environment carrying capacities, alongside case studies in representative regions.

Keywords

- environmental model
- assessment method
- statistic model
- mechanism model
- regional indicators
- machine learning
- water resource environmental model
- assessment method
- statistic model
- mechanism model
- regional indicators
- machine learning
- water resource

Special Issue

Editor-in-Chief

Dr. Jean-Luc PROBST
Laboratory of Functional Ecology
and Environment, Centre
National de la Recherche
Scientifique (CNRS), University of
Toulouse, Campus ENSAT,
Auzeville Tolosane, France

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.
Journal Rank: JCR - Q2 (*Water Resources*) / CiteScore - Q1 (*Water Science and Technology*)
