Water Sustainability and High-Quality Economic Development

Guest Editors:

Dr. Yang Kong

Dr. Liang Yuan

Dr. Li Xu

Dr. Dagmawi Mulugeta Degefu

Message from the Guest Editors

This Special Issue concerns works addressing the link between water, the environment, and the social economy. We invite contributions that address these challenges or others in water sustainability and high-quality economic development considering quantitative and qualitative dimensions of the water environment carrying capacity, as well as those with a multidisciplinary approach.

Deadline for manuscript
submissions:

30 June 2024

Keywords

- water sustainability
- water–environment–economy nexus
- water environmental carrying capacity
- coordinated development

Scientifique (CNRS), University of
Toulouse, Campus ENSAT,
Auzeville Tolosane, France

Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Water Resources*) / CiteScore - Q1 (*Water Science and Technology*)
