## China Water Forum 2023

Guest Editors:

**Prof. Dr. Qiting Zuo**

**Prof. Dr. Fuqiang Wang**

**Prof. Dr. Jiaqi Zhai**

**Prof. Dr. Xiuyu Zhang**

**Prof. Dr. Dunxian She**

**Dr. Lei Zou**

**Dr. Rong Gan**

**Prof. Dr. Zengliang Luo**

Deadline for manuscript  
submissions:

**closed (31 December 2023)**

### Message from the Guest Editors

Dear Colleagues,

The Editorial Department of Water Journal cooperates with “China Water Forum”, “Water Science Development Forum”, and “Water Science Lectures” for setting up a series of columns. At least one column is planned each year currently. The column established in 2023 is “China Water Forum 2023”. We welcome scholars and graduate students participating in the above mentioned conferences as well as scholars who study water issues of China, to submit full texts of their unpublished manuscripts. The received papers will be professionally peer reviewed and recommended for publication by the editorial board.

We invite submissions in, but not limited to, the following topics:

- ( 1 ) Climate change and hydrology.
- ( 2 ) Water problems and human-water relationship control.
- ( 3 ) Water environment and ecology.
- ( 4 ) Water information technology and modeling.

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

### Dr. Jean-Luc PROBST

ECOLAB, Centre National de la Recherche Scientifique (CNRS), University of Toulouse, campus ENSAT, Auzeville Tolosane, France

## Message from the Editor-in-Chief

In the context of global changes, the sustainable management of water cycles, going from global and regional water cycles to urban, industrial and agricultural water cycles, plays a very important role on the water resources and on their relationships with food, energy, biodiversity, ecosystem functioning and human health. *Water* invites authors to provide innovative original full articles, critical reviews and timely short communications and to propose special issues devoted to new technological and scientific domains and to interdisciplinary approaches of the water cycles. We ensure a critical review process and a quick turnaround between submission and final decision.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, GeoRef, PubAg, AGRIS, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Water Resources*) / CiteScore - Q1 (*Water Science and Technology*)
