## **Aims**

*Physics* is an international, peer-reviewed, open access journal which presents the latest research on all aspects of physics ranging from fundamental studies to emerging technologies. It publishes reviews, regular research papers, and short communications as well as Special Issues on particular subjects.

Our aim is to encourage scientists to publish their experimental and theoretical studies in as much detail as possible. Therefore, the journal has no restriction on the maximum length of the papers. Full experimental details should be provided so that results can be reproduced.
